Issue: Plan Line Study for Increased Bicycle Space

Lead Department: Public Works

General Plan Element or Sub-Element: Land Use and Transportation

1. What are the key elements of the issue? What precipitated it?

The Bicycle and Pedestrian Advisory Committee would like to complete a plan line study to identify right-of-way adjacent to collector and arterial streets in Sunnyvale that were identified in the Bicycle Opportunities Study as requiring right-of way in order to accommodate a class II bicycle lane.

This study would identify all of the issues that would need to be examined as part of a large scale plan line study and would result in the creation of a City policy regarding right-of-way acquisition for the implementation of a Sunnyvale bicycle network. Issues such as utility relocation, tree removal, street reconstruction, mapping of effected properties, the creation of non-conforming parcels, the legality of the right-of-way take, property owner compensation, extensive public outreach, and environmental impacts would be identified for further study. In addition the preliminary cost of an extensive plan line study will be estimated.

2. How does this relate to the General Plan or existing City Policy?

BP.B2.a, City of Sunnyvale Bike Plan - Provide for bicyclists as part of road widening, new developments or property redevelopment, wherever feasible. Notify City Council if providing for bicycles appears to be infeasible.
